RULES FOR THE SUPERVISION OF BREWERIES.

No. 144.—In the exercise of the powers conferred upon him by section 29 (clauses *h* and *k*) of the Madras Abkári Act, 1886, and of all other powers enabling him in this behalf, the Right Honorable the Governor in Council is pleased to make the following rules:—

1. Every licensed brewer shall keep in some part of his brewery, which shall be approved by the Collector and which shall be accessible both by day and by night to all officers authorized to inspect the brewery, a Brewing Book in the appended form, in which shall be separately entered the particulars of every brew made. No entry in a Brewing Book shall be cancelled, erased, obliterated or altered and no entry shall be made therein which is incorrect in any particular.

2. Every entry in a Brewing Book shall be made by the brewer himself or by some responsible person employed by him whose name shall previously be reported for the approval of the Collector.

3. Columns 1 and 2 of the Brewing Book shall be filled up not less than six hours before the brew to which they relate is begun. Columns 3 to 5 shall be filled up not less than two hours before any of the materials are used. Columns 6 and 7 shall be filled up simultaneously with the entries in columns 3 to 5. Columns 8 to 13 shall be filled up within one hour after the completion of the collection of the worts of each brew in the fermenting vessels, and columns 14 to 20 within one hour after the completion of the collection of the beer in the racking vessels, provided that, if the worts be not all collected in the fermenting vessels, or if the collection of the beer in the racking vessels be not completed, before 9 P.M. on any day, the time for making the entries in columns 8 to 20 will be extended to 8 A.M. the next morning.

4. All fermenting and racking vessels must be so placed and fixed to the satisfaction of the Collecor as to admit of the contents being accurately gauged or measured, and must be fitted to the satisfaction of the Collector with proper dipping rods so adjusted to fixed dipping places that the contents of such vessels may at any time be ascertainable.

5. The name of every such vessel shall be kept painted on a conspicuous part thereof. If more than one such vessel is used for either of the above purposes, each shall be distinguished by a progressive number.

6. A table shall be prepared by the brewer and be checked by the Collector or other officer appointed by him showing the capacity of each vessel in imperial gallons by the number of "dry inches," that is, the unoccupied space between the surface of the liquid contained in the vessel and the fixed dipping place.

7. No vessel shall be used for the fermentation of worts or for the racking of beer until it has been gauged and the gauging has been checked as above provided.

8. Officers authorized to inspect breweries shall be at liberty to check declarations of quantity and gravity at any time. They shall also be at liberty to take samples of the worts and beer at any stage of the manufacture and to send them for analysis.

9. No brewer shall use or permit to be used in the manufacture of beer any ingredients other than properly-prepared malt (or preparations thereof), sugar and hops. The proportion of sugar used shall not exceed one quarter of the total of the malt or preparations of malt and sugar used. The quantity of hops used shall not fall short of 3 lb. per hogshead. No beer brewed under licenses issued under the Madras Abkári Act, 1886, shall contain more than eight per cent. of absolute alcohol by volume.

10. Every brewer shall keep a Stock Account in which he shall enter the quantity of beer manufactured in his brewery, the quantity sold or wasted, the persons to whom sold, and the quantity remaining unsold each day. Such account shall be produced for the inspection of the Collector or any officer appointed by him for the purpose of inspecting it whenever required.

11 The stock of beer on hand in every brewery shall be examined by the Collector or other officer appointed by him once a quarter or oftener as the Collector may direct. If the quantity of beer found in the brewery on such examination shall be found to be in excess of the quantity shown on hand in the Stock Account, the brewer shall pay duty on such excess at double the rate hereinafter prescribed.

12. A quarterly account shall be prepared by every brewer and shall be forwarded by him to the Collector on or before the fifth day of each of the months of January, April, July, and October. Such account shall show the total quantity of beer made during the preceding quarter respectively ending on December 31, March 31, June 30, or

September 30, as the case may be, and the quantities of beer sold to the public and issued to the Commissariat Department on the public service during such quarter.

13. The Collector shall take such steps as he may think fit for checking the accuracy of the said quarterly account by comparison with column 16 of the Brewery Book, with the brewer's Stock Account, with the counterfoils of the permits issued by the brewer under Government Notification, No. 75, dated March 17, 1886, and with the certificates granted by the officers of the Commissariat Department to whom beer has been issued on the public service; and shall then advise the brewer of the amount of duty calculated as below specified payable by him on account of the beer made in the quarter.

14. The brewer shall pay the duty so calculated into a Government treasury within five days of receipt of advice as hereinbefore specified. Receipts shall be granted in duplicate for all payments so made by brewers. The brewer shall retain one receipt and shall send the other to the Collector.

15. If a brewer objects to the amount of duty fixed by the Collector as hereinbefore provided, he may move the Collector to revise his charge. If still dissatisfied with the orders of the Collector, he may appeal to the Commissioner of Salt and Abkári Revenue, whose orders shall be final. Provided that no such revision shall be undertaken by the Collector nor shall any appeal be admitted by the Commissioner unless and until all sums found to be due by the brewer under rule 13 have been previously paid. In the event of the Collector's original charge of duty being found by him or being decided by the Commissioner to be excessive, the excess levied from the brewer will be refunded to him.

16. Duty shall be calculated at the rate of one anna per imperial gallon or at such other rate as the Governor in Council may from time to time prescribe under section 17 of the Madras Abkári Act, 1886, upon the whole quantity of beer made in every brewery as above ascertained, provided that an allowance of eight per cent. shall be made for wastage in the conduct of operations, and that no duty shall be charged on beer issued to the Commissariat Department on the public service and certified to have been so issued by the proper officers of that Department.

17. In the event of the above-mentioned allowance of eight per cent. for wastage being exceeded through the accidental breakage of a cask or other unavoidable cause, the matter shall be reported to the Commissioner of Salt and Abkári Revenue, whose decision shall be final.

REPORTS ON THE STATE OF THE SEASON AND PROSPECTS OF THE CROPS FOR THE WEEK ENDING 14TH APRIL 1886.

GENERAL REMARKS.—During the past week there has been slight rain on the Malabar coast, in Chittagong, in parts of the central districts of Bengal, in Meerut, Rawalpindi, Peshawar, and Sialkot, while heavier falls have occurred in the eastern districts of Bengal and in Assam.

The reaping of the *rabi* harvest is nearly over in Bengal, the North-Western Provinces and Oudh, the Central Provinces, Bombay, and Rajputana, and threshing and winnowing are going on. In parts of the Punjab the harvest has commenced.

The standing crops in the Madras Presidency and Mysore are in good condition; but rain would be beneficial in the Malabar District and in the coffee districts of Mysore.

The prospects of the *boro* rice crop in Bengal are favorable, except in two districts, where rain is needed. Preparations for the *aus* rice crop continue, and jute sowings have commenced. Sugar-cane is being planted, and the land is under preparation for the *kharif* in several provinces. Cattle-disease is reported from Madras, Mysore, parts of Bombay and Sind, the North-Western Provinces and Oudh, the Central Provinces, Burma, and Assam, but is nowhere severe.

Prices of food-grain are generally steady in Bengal, and the markets in the North-Western Provinces and Oudh are well supplied. In the Punjab prices are rising in Delhi and falling in the Peshawar District; elsewhere they are stationary. In the Central Provinces prices are fluctuating, with a tendency to fall, and the wheat trade is reviving.

Small-pox and fever are reported from parts of the Madras and Bombay Presidencies and of Rajputana. Cholera is prevalent in Eastern Bengal and in some districts of Assam.

The Standard Barometer and Thermometers are read at 10 A.M., 4 P.M., and 10 P.M., and the daily means are obtained by the application of hourly corrections, deduced from twenty years' observations. The cistern of the Barometer is twenty-two feet above the level of the sea, and the receiver of the Rain Gauge is two feet from the ground. The wind and rain registered are for the current Civil Day—from midnight to midnight.

The total quantity of rain collected since January 1st is 0·92 inch, the average due for the same period being 2·47 inches.

This contains the story of the invincible brothers Sanda and Upa Sanda who, by their austere penances, compel Brahma to bless them with no risk to life at the hand of any other except their own. They made themselves unbearable even to the gods, who besought Brahma for relief. Tilottama, of peculiar beauty, was created and was commissioned by the gods to go alone to the brothers and vanquish them by her irresistible charms. Accordingly a dispute as to who should be the possessor of this beautiful woman arose with no decision, and at last, taking their clubs, they began a terrible combat, which terminated in their death. Tilottama was, on her return with success, rewarded by the gods with perpetual happiness in Indra's kingdom and a distinguished place among the heavenly damsels.
